Figure 1. Estimation of total opioid users compared to opioid users entering drug treatment

Total Opioid Users

Expansive Estimate 115,459

Restrictive Estimate 69,463

Expansive Estimate 23,040

Restrictive Estimate 20,160

Midpoint Estimate 92,461

Opioid Users Entering Drug Treatment

Expansive Estimate 23,040

Restrictive Estimate 20,160

Midpoint Estimate 21,600

Expansive Estimate 115,459

Restrictive Estimate 69,463

Midpoint Estimate 92,461

Opioid user subpopulations: midpoint estimates

Medical Services (M) = 17,618

Drug Services (D) = 28,378

Buprenorphine Prescriptions (B) = 2,880

Drug Treatment Programs (P) = 20,160

General Population (G) = 69,463
