7th June 2010

Dr Nicola Gale and Dr Tom Marshall
School of Health and Population Sciences
University of Birmingham

Dear Dr Gale and Dr Marshall

Re: “Investment in prevention (evaluation of targeted prevention of cardiovascular disease in primary care)”
Application for Ethical Review ERN_10-0429

Thank you for your application for ethical review for the above project, which has now been reviewed by the Life and Health Sciences Ethical Review Committee.

It is understood that this project would not require ethical review via the National Research Ethics Service (NRES) as it has been classified as service evaluation rather than research.

On behalf of the Committee, I am pleased to confirm a favourable ethical opinion for your project, subject to the Committee’s satisfaction with your response to the following conditions:

- In your application, you state that if a participant withdraws, their data will be automatically included in the study. If this is the case, it should be very clearly stated within the participant information sheets. For the patient participants, it should also be clearly explained what will happen to any photographs, if a participant withdraws after the photographs have been submitted.

- In the consent form, you request permission to use direct quotations. It should be clarified in the consent form that these quotations will be anonymised, and the proposed use of direct quotations should be explained in the participant information sheets.

- Please contact the relevant NHS R&D department in order to confirm they are happy with the arrangements in place to interview NHS staff.
• A Sponsor should be identified for this study, in line with the requirements of Department of Health’s Research Governance Framework. Please clarify who will be sponsoring this study, and if necessary please complete and return the attached PF1 form to request that the University acts as Sponsor.

I would be grateful if you could confirm by email to s.l.cottam@bham.ac.uk that these conditions will be met, and also provide the requested information and documentation prior to the commencement of the study.

I would like to remind you that any substantive changes to the nature of the study as described in the Application for Ethical Review, and/or any adverse events occurring during the study should be promptly brought to the Committee’s attention by the Principal Investigator and may necessitate further ethical review.

Please confirm receipt by return email.

Yours sincerely

Dr Jane Steele
Chair
Life and Health Sciences Ethical Review Committee
Application for the University of Birmingham to Act as Sponsor under the Department of Health’s Research Governance Framework for a research study – PF1

The University is requested to agree to act as Sponsor for staff led research or supervised postgraduate student research study falling under the Research Governance Framework for Health and Social Care with respect to the following project:

PLEASE CONSULT THE NOTES FOR APPLICANTS BEFORE USING THIS FORM
