Perceptions of integration

Themes

Appreciating benefits

Subthemes

- Benefits to women
- Benefits to men
- Benefits to the HCP
- Benefits to the funders of health programs

Worrying about limited health system capacity and potential consequences of integration

Subthemes

- Workload for HCP
- Women’s waiting time at the clinic
- HIV stigma impact on CC screening uptake
- Women with double positive test results
- Being unable to screen many women
- Linkages to other departments e.g. ARVs
- Client’s inability to learn HIV and CC at ago
- Shortage of drugs and clinical supplies
- Lack of enough space (infrastructure)

Feeling optimistic about integration under improved health system conditions

Subthemes

- Creating a team to deliver the services
- Creating linkages with other departments
- Adapting the existing infrastructure
- Synchronizing supplies for HIV and CC
- Training of HCP in both HIV and CC
- Recruiting more HCP
- Motivating HCP e.g. salary increment
- Booking fewer women for screening
