The bar chart shows the percentage of respondents for different benefits of mosquito bed nets. The benefits are:

- Kill mosquitoes: 0%
- Protect from mosquito bites: 55%
- Prevent malaria: 48%
- Peaceful sleep: 2%
- Gives warmth: 7%
- Protect against other insect bites: 10%
- No response: 5%

The chart indicates that the majority of respondents value protection from mosquito bites and preventing malaria, while other benefits are less significant.
