Stepwise screening tests in the general practice

- Random capillary blood glucose
  - $\geq 11.1$ mmol/l

- Fasting capillary blood glucose
  - 5.5 - 11.0 mmol/l

- Capillary HbA1c also measured at this stage

  - < 5.5 mmol/l
    - No Diabetes
  - 5.5 - 6.0 mmol/l and capillary HbA1c $\geq 6.1\%$
    - $\geq 6.1$ mmol/l
      - Standard 75g oral glucose tolerance test
  - $< 5.5$ mmol/l

Diagnostic test in outpatient clinical research facility

- 5.5 - 6.0 mmol/l
  - $\geq 6.1$ mmol/l
    - No Diabetes
