A. 

CTRL, Tryptase (4 mU/ml), LPS (10 µg/ml)

B. 

Inhibition of tryptase/trypsin-induced L6 cell proliferation (%)

C. 

COX-2 activity

D. 

L6 cell proliferation (percent increase above control)

E. 

Tryptase 2 mU/ml, Trypsin 200 nM

[15Δ-PGJ2]
