1222 women participated in original study 1997

618 women participated in follow-up measurements at 2006

490 women had both ultrasound and DXA measurements

Fracture follow-up starts Dec. 1, 1997 and ends Dec. 31, 2010

Fractures before measurements 1997-2006
- Fracture n=81
  - Controls n=409
    - Hip fracture n=9

Fractures after measurements 2006-2010
- Fracture n=61
  - Controls n=429
    - Hip fracture n=11

Fractures during follow-up 1997-2010
- Fracture n=130
  - Controls n=360
    - Hip fracture n=20
