Figure 1. Flowchart showing selection of patients who participated in the study

Cohort 1
Agreed to participate
N= 75

Completed baseline measurements
N= 138

Asked to complete re-test
N= 117

Completed re-test
N= 102

Reliability analysis
N= 99

Cohort 2
Agreed to participate
N= 79

Did not complete baseline measurements
N= 16

Participated before re-testing was introduced
N= 21

Did not complete re-test measurements
N= 15

Excluded: re-test beyond 30 day interval
N= 3

Asked to complete re-test
N= 117

Did not complete baseline measurements
N= 16

Participated before re-testing was introduced
N= 21

Did not complete re-test measurements
N= 15

Excluded: re-test beyond 30 day interval
N= 3
