Figure 3

Graph showing the % TSP for different constructs and plants. The constructs include Nef/TBSV-P19, Nef/AMCV-P19, Nef/PVX-P25, and Nef/TBSV-P19. The plants are grouped by M, B, and T, with three replicates each (1, 2, 3). The graph indicates that the Group Means for Nef/TBSV-P19 are 0.31, 1.33, and 0.93 for different replicates, respectively.
