Fig. 1

![Bar graph showing AUC (insulin; mmol/l x 90 min) for Control and AF groups.]

Fig. 2

**High-fat diet**

![Graph showing insulin levels (pmol/l) over time (min) for High-fat diet.]

**Normal diet**

![Graph showing insulin levels (pmol/l) over time (min) for Normal diet.]

**Glucose levels (mmol/l) over time (min) for High-fat and Normal diets.**

- Graphs a and b compare insulin levels with 1,5-anhydro-D-fructose and Vehicle.
- Graphs c and d depict glucose levels under the same conditions.
