My Choices

Booklet for young people aged 16+

ALL CLIPART IMAGES HAVE BEEN REMOVED FROM THIS BOOKLET TO AVOID COPYRIGHT INFRINGEMENT – PLEASE FEEL FREE TO PERSONALISE WITH YOUR OWN LOCAL ARTWORK
Introduction

What is this booklet for?

This booklet is to help you:

- Think about your care now and in the future
- Consider care choices and preferred locations of care in different scenarios
- Facilitate discussion with health care professionals
- Keep a record that can be added to over time

This booklet can be used in a number of ways:

If you want to you can:

- Take it home and use it in private,
- Fill it in with the support of health care professionals such as your doctor or nurse,
- Use it to help consider your thoughts and feelings,
- Use it to help talk through care choices and options with your friends, family and health care professionals.
- You can use this booklet to think about things, you don’t have to fill it in.

What care options and services are available?

When using the ‘My Choices’ booklet – You can refer to the accompanying leaflet ‘Types of Services and Important Terms’.

Sometimes, not all care options and services will be available in your area – but knowing your preferred choice and preferred location of care will help the NHS to plan services for the future. Sometimes your care choices and preferred options may not be able to translate into actual services.
The ‘My Choices’ booklet for young people covers:

Thinking about and planning for different situations, including:

- Every day
- Social activities I would like to do, things I would like to achieve
- Routine appointments and follow-up
- Education/employment
- Transition to adult services

And

‘What if?’ - scenarios, including:

- If I or my family need a ‘short break’
- If I am mildly unwell
- If I am moderately unwell
- If I am very unwell
- If I may not recover
### Everyday care at home

You may need practical help and support to care for yourself at home.

#### Is this an aspect of your care that you want to change or improve?
If yes, please provide a brief description of your current situation.

#### Do you have a ‘key worker’ to coordinate care?  
Circle: Yes  No  Don’t know

If you answered ‘No’ or Don’t know’ ask your nurse or doctor.

#### What works well with your everyday care?

#### What would you like to work better at the moment with your everyday care?

#### How important is it to change/improve this aspect of your care?

Planning ahead: what if doctors consider that I may not recover?

How important is it for you to have a clear plan in place for this aspect of your care?

Circle one option

Very important    Important    Not important

When would be an appropriate time for you and your family to start thinking about planning care if doctors thought that you may not recover?

Circle one option

Months in advance    Weeks in advance    At the time

If appropriate – what type of help and support would you and your family need to start thinking about and planning this aspect of care with your care team?

Please describe:
Planning ahead: what if doctors consider that I may not recover?

Would you and your family like to see a copy of an ‘end of life’ care plan template for future use?

Circle one option

Yes    No    Don’t know

If ‘Yes’ contact your nurse or doctor.

You may not be ready to, or need to, consider care options – but if you have a preference – where would you prefer to be cared for:

➢ Towards the end of your life? Please state option:

➢ At the end of your life? Please state option:

Use this rating scale to show where you are now:

1. 2. 3. 4. 5. 6. 7. 8. 9. 10.

Very far from thinking about end of life care options

Very close to thinking about end of life care options
Other important things you wish to think about and plan ahead:
