A

Concentration (µg/ml)

VEGF (pg/mL)

Bar graphs showing the concentration of VEGF in pg/mL for different concentrations of a compound at 24h and 48h. The graphs indicate statistically significant differences (p<0.05).

B

Concentration (µg/ml)

VEGF (pg/mL)

Bar graphs showing the concentration of VEGF in pg/mL for different concentrations of a compound at 24h and 48h. The graphs indicate statistically significant differences (p<0.05).
