Appendix C

Concept map for supervisor recommendations

A → B: themes A and B have at least one common code
A → B: at least one code classified under theme A as the most compelling theme is carried over to theme B
A ← B: at least one code classified under theme A as the most compelling theme is carried over to theme B, and vice versa

nc: no. of codes assumed
nq: no. of quotations

A and B are meta-terms referring to boxed themes within the concept map.
