Multimodal Workshop

Clear learning outcomes

Evaluation

T1 = Pre-workshop
- self assessment of proficiency
- treatment behaviour

T2 = Post workshop (6 months)
- self assessment of proficiency
- treatment behaviour

Sources of educational need identification:
- literature
- critical incidents
- learner requests

Multimodal Workshop

Delivery methods

Small groups - up to 15 learners

Didactic
- lecture
- group discussions

Multimedia
- videos of:
  - local anaesthesia
  - handling of dental materials

Case studies
- with safety parameters identified

SIM
- use of dental models

Peer assessment of practical SIM tasks
