Step 1 - Inject Generation

Injected Victim Generation Model

Basic Characteristics of Synthetic Inject

Step 2 - Identification of Closest Patient Care Descriptor

Distance Measure

Closest Patient Care Descriptors

Patient ID 127151
- HV Visit 2
- Lab Order 1
- Lab Result
- Rad Order 1
- Rad Result 1
- Fever 1
- Respiratory 1
- Headache 1
- Strep Group A 1

Selection Algorithm

Step 3 - Adaptation of Patient Care Model

Adjusted Care Model

Specific Disease Care Modifiers

Pilot Care Model

Injected Victim Electronic Medical Record

Injection Algorithm
