Figure 5: Bar chart showing the mean proportion of key parameters missing (lower is better) for different providers and note types with the CDMS.

- **Does the CDMS improve recording of key parameters?**

- **X-axis:** Providers 1, 2, 3, and Overall.
- **Y-axis:** Mean proportion of key parameters missing (lower is better).

Legend:
- CDMS
- Recent dictated note and attached labs
- Old dictated note (>1y) and attached labs
