BARRIERS TO CARE COORDINATION

- Recognising health professional roles and responsibilities
- Transitioning of care: falling through the cracks
- Inadequate communication between specialist and primary care
- Implementing comprehensive MDT meetings
- Managing scarce resources
- Inequitable access to health services

POTENTIAL SOLUTIONS

- Introduction of MDT coordinator
- Proformas & electronic information transfer to aid communication
- Joint protocols & service agreements between public and private services
- Regional cancer centre network

OPTIMAL CARE COORDINATION
