Figure 1: PMTCT Cascade during 3 Years of Implementation, 2005 to 2008 [n = 38 health facilities]

- No. of ALL pregnant women seen this month and counseled about PMTCT
- No. of women receiving PMTCT services (i.e. counseled, tested and received test results)
- No. of all pregnant women who agreed to be tested and tested positive for HIV
- No. of HIV positive women who receive a complete course of ARV prophylaxis to reduce the risk of MTCT
- No. of HIV positive women enrolled or referred for clinical care beyond PMTCT
