Notes: CVD = cardiovascular disease, AHC = adult health check, NTPCDS = Northern Territory Preventable Chronic Disease Strategy.

NT PCDS scheduled services comprise all 20 services detailed in Box 1 of this article.

Evidence based CVD preventive services (N=6): smoking advice, measurement of blood pressure, blood glucose, lipids, influenza vaccination and chronic disease care planning.

Means are calculated for all participants in the time series study (N=64).

The vertical line mid-graph represents the intervention point: AHC participation.
