A. Discounted lifetime QALYs vs. discounted lifetime cost($) for different treatments:
- No treatment
- ADV monotherapy
- ETV monotherapy
- Combination therapy

B. Discounted lifetime QALYs vs. discounted lifetime cost($) for different treatments:
- No treatment
- ADV monotherapy
- ETV monotherapy
- Combination therapy

ICER calculations:
- ETV monotherapy: ICER = $28765.1/QALY
- Combination therapy: ICER = $6531.7/QALY

Graphs show cost-effectiveness ratios for different treatments.
