Focus of the study

- Facilitators to use of research: 114 studies
- Barriers to use of research: 103 studies
- Processes of research use: 50 studies
- Research uptake (amount/rate/other measurement): 35 studies
- Strategies to increase research use: 20 studies
- Impact of research use: 18 studies
- Feasibility of research use: 18 studies
- Other evaluation of research use: 5 studies
- Justification for research use: 3 studies
