Initial database: 2,425 patients

Exclusion by local cancer registry (838)

Records for analysis: 1,587

Reference centre: 737
First peripheral centre: 207
Second peripheral centre: 643

No breast cancer (15)
Carcinoma in situ (30)
Her2 over-expression (68)
Male (11)
Different date of initial diagnosis (355)
Metastatic breast cancer (233)

Final database: 875

Records with missing data (170)
Duplicate record (6)
Pregnant women (2)
Refusal to treat (2)
Missing patients (4)
Management in other regional hospital (19)
Several cancers (5)

Final study population: 667

Reference centre: 342
First peripheral centre: 77
Second peripheral centre: 248
