The graph shows the growth of biomass (g/L) over time (h) for different samples labeled BSUL03, BSUL04, BSUL05, and BSUL05(+). The biomass levels are indicated by various markers and lines, with error bars showing the variability of the data. The x-axis represents time in hours, ranging from 0 to 40, and the y-axis represents biomass concentration in g/L, ranging from 0.005 to 1.0.
