Figure 5

A. Pancaspase inhibitor concentration (µM)

B. Caspase-3 inhibitor concentration (µM)

C. Caspase-2 inhibitor concentration (µM)

D. Caspase-9 inhibitor concentration (µM)

E. Caspase-10 inhibitor concentration (µM)

Apoptosis (%) vs. inhibitor concentration (µM) for UT, DMSO, TFUNG, and BFUNG treatments. Significant differences are indicated with asterisks: *p<0.04, **p=0.001, ***p=0.0001.
