Patients suspected of malaria

Malaria negative patients

P. falciparum Thick Blood Film positive patients

TBF not available for scoring of parasite density

1+, 2+ or 3+ (MoH semi-quantitative scale)

4+ or 5+ (MoH semi-quantitative scale)

Parasite density < 4 %

Parasite density ≥ 4 %

Additional samples selected for further HRP-2 RDTs testing

EDTA blood samples not available

Prozone testing:
6 HRP-2 and 2 Pf-pLDH RDTs

Prozone (Paracheck-Pf)*

No prozone (Paracheck-Pf)*
