Figure 6

Duarte et al / Figure 6

The figure shows a scatter plot with the logarithm of the relative quantitation (ln RQ) on the y-axis and different conditions on the x-axis. The conditions include K73, N65, and A/AAlp4. The genes represented are Ccl2, Ccl3, Tlr2, Tlr4, and Tnfa. The plot includes statistical significance indicators (***, **, *) for differences between conditions.
