Figure 2: Anti-*P. falciparum* IgG responses according to malaria positive and negative infection in both villages

2A. **Mboula (An. gambiae s.l.)**

![Graph showing Anti-P. falciparum IgG responses in Mboula.](image)

- Mboula (An. gambiae s.l.)
  - Negative: n=358
  - Positive: n=67
  - P<0.001

2B. **Gankette Balla (An. funestus)**

![Graph showing Anti-P. falciparum IgG responses in Gankette Balla.](image)

- Gankette Balla (An. funestus)
  - Negative: n=527
  - Positive: n=33
  - P<0.001
