**Asymptomatic infection**

- **A**
  - IL-10 (pg/mL) vs. anti-SGS (OD)
  - \( r = 0.50 \)
  - \( p = 0.0002 \)

- **C**
  - IFN-\( \gamma \) (pg/mL) vs. anti-SGS (OD)
  - \( r = 0.25 \)
  - \( p = 0.07 \)

- **E**
  - IFN-\( \gamma \)/IL-10 ratio vs. anti-SGS (OD)
  - \( r = -0.31 \)
  - \( p = 0.03 \)

- **G**
  - IFN-\( \gamma \)/IL-10 ratio vs. anti-SGS (OD)
  - Comparison between Asymptomatic and Symptomatic infection
  - \( p = 0.0091 \)

**Symptomatic infection**

- **B**
  - IL-10 (pg/mL) vs. anti-SGS (OD)
  - \( r = 0.16 \)
  - \( p = 0.17 \)

- **D**
  - IFN-\( \gamma \) (pg/mL) vs. anti-SGS (OD)
  - \( r = 0.12 \)
  - \( p = 0.29 \)

- **F**
  - IFN-\( \gamma \)/IL-10 ratio vs. anti-SGS (OD)
  - \( r = -0.05 \)
  - \( p = 0.68 \)

*P. vivax infection*
