Figure 2. The area under the Receiver Operating Characteristic (AUROC) curve for Neopterin, Procalcitonin, and Lactate.

- **Neopterin**: Area Under ROC Curve (AUROC) = 0.85, 95% confidence interval = 0.76 - 0.94
- **Procalcitonin**: Area Under ROC Curve (AUROC) = 0.78, 95% confidence interval = 0.66 - 0.91
- **Lactate**: Area Under ROC Curve (AUROC) = 0.80, 95% confidence interval = 0.65 - 0.96
