**POPULATION CHARACTERISTICS**
For adults, teens, children, small children, infants:
Body weight, inhalation rate, ingestion rate (drinking water, dust), time spent indoors and outdoors

**ENVIRONMENTAL MEDIA**
Concentrations and frequency of detection ratios in outdoor air, indoor air, dust, and drinking water

**FOOD AND BEVERAGES**
Concentrations and frequency of detection ratios, consumption for each life stage

**LIFETIME DAILY INTAKE ESTIMATES**

**CANCER POTENCY FACTORS**

**LIFETIME EXCESS CANCER RISK**
