Health cost EU 11 from nitrate pollution of drinking water

Connection to (large) public and private supplies E12

Relative use of groundwater and surface water

Supply from private wells of drinking water from groundwater

Public supply of drinking water from groundwater

Exposure to >25 mg/l nitrate in public drinking water

Exposure to >25 mg/l nitrate in private/small wells

EU11 reports of non-compliance Nitrate and nitrite in public supply

Nitrate in drinking water

Monitoring data nitrate pollution in groundwater EU

Nitrogen leaching agricultural land EU (MITERRA model)

Social cost

Loss of healthy life years and premature death per case

Monetary value of a lost or healthy life year

Health cost EU 11 from nitrate pollution of drinking water

Registration incidence of colon cancer EU11

Additional incidence of colon cancer EU11

Dose-response colon cancer incidence to nitrate

Colon cancer incidence

Nitrogen leaching agricultural land EU (MITERRA model)
