Sensitivities with different RRs in detecting the circular cluster with larger population size

Sensitivities with different RRs in detecting the long cluster with median population size

Sensitivities with different RRs in detecting the Y-shaped cluster with fewer population size

Error rates with different RRs in detecting the circular cluster with larger population size

Error rates with different RRs in detecting the long cluster with median population size

Error rates with different RRs in detecting the Y-shaped cluster with fewer population size
