Figure 2. Distribution of road traffic noise estimated in the residential neighborhood (in a 500 m radius street network buffer) for all RECORD participants (A) and for one participant (B) in the Ile-de-France region.

From: Bruitparif, Insee

Road traffic noise estimated in the residential neighborhood of RECORD participants
Noise estimated in 500m radius street network buffer (in Lden indicator)
- Dark grey: 35 - 50 dB(A)
- Medium grey: 50 - 65 dB(A)
- Light grey: 65 - 80 dB(A)

The Ile-de-France region
- Paris: 75; inner suburbs: 92,93,94; outer suburbs: 77,78,91,95

Example of one street network buffer
