Avoidable mortality, Amsterdam, Males, 1996–2008
Smoothed Standardised Mortality Ratios (sSMR)

Avoidable mortality, Amsterdam, Males, 1996–2008
Probability that the sSMR is higher than 100
Avoidable mortality, Amsterdam, Females, 1996–2008
Smoothed Standardised Mortality Ratios (sSMR)

Avoidable mortality, Amsterdam, Females, 1996–2008
Probability that the sSMR is higher than 100
Smoothed Standardised Mortality Ratios (sSMR)

Probability that the sSMR is higher than 100
Smoothed Standardised Mortality Ratios (sSMR)

Probability that the sSMR is higher than 100
Avoidable mortality, Brussels, Males, 2001–2004
Smoothed Standardised Mortality Ratios (sSMR)

Avoidable mortality, Brussels, Males, 2001–2004
Probability that the sSMR is higher than 100
Avoidable mortality, Budapest, Males, 2001–2008
Smoothed Standardised Mortality Ratios (sSMR)

Avoidable mortality, Budapest, Males, 2001–2008
Probability that the sSMR is higher than 100
Avoidable mortality, Helsinki, Males, 2000–2009
Smoothed Standardised Mortality Ratios (sSMR)

Avoidable mortality, Helsinki, Males, 2000–2009
Probability that the sSMR is higher than 100
Avoidable mortality, Kosice, Males, 1996–2008
Smoothed Standardised Mortality Ratios (sSMR)

Avoidable mortality, Kosice, Males, 1996–2008
Probability that the sSMR is higher than 100
Avoidable mortality, Kosice, Females, 1996–2008
Smoothed Standardised Mortality Ratios (sSMR)

Avoidable mortality, Kosice, Females, 1996–2008
Probability that the sSMR is higher than 100
Smoothed Standardised Mortality Ratios (sSMR)

Probability that the sSMR is higher than 100
Avoidable mortality, Rotterdam, Males, 1996–2008
Smoothed Standardised Mortality Ratios (sSMR)

Avoidable mortality, Rotterdam, Males, 1996–2008
Probability that the sSMR is higher than 100
Avoidable mortality, Rotterdam, Females, 1996–2008
Smoothed Standardised Mortality Ratios (sSMR)

Avoidable mortality, Rotterdam, Females, 1996–2008
Probability that the sSMR is higher than 100
Avoidable mortality, Stockholm, Males, 2000–2007
Smoothed Standardised Mortality Ratios (sSMR)

Avoidable mortality, Stockholm, Males, 2000–2007
Probability that the sSMR is higher than 100
Smoothed Standardised Mortality Ratios (sSMR)

Probability that the sSMR is higher than 100
Avoidable mortality, Turin (2666 Areas), Females, 1995–2008
Smoothed Standardised Mortality Ratios (sSMR)

Avoidable mortality, Turin (2666 Areas), Females, 1995–2008
Probability that the sSMR is higher than 100
Avoidable mortality, Zurich, Males, 1995–2008
Smoothed Standardised Mortality Ratios (sSMR)

Avoidable mortality, Zurich, Males, 1995–2008
Probability that the sSMR is higher than 100
Avoidable mortality, Zurich, Females, 1995–2008
Smoothed Standardised Mortality Ratios (sSMR)

Avoidable mortality, Zurich, Females, 1995–2008
Probability that the sSMR is higher than 100
