Figure 6

The figure shows a graph with the x-axis labeled "LMP1 (ng)" ranging from 0 to 600 ng, and the y-axis containing protein bands for ATF3, LMP1, and Actin. The graph includes data points for different concentrations of LMP1 (1, 0.78, 0.51, 0.33, 0.25, 0.39 ng) at various time points (1, 13, 105, 110, 213, 331).
