Spleen cholesterol concentration (mg/g tissue weight)

Baseline | Week 1 | Week 2 | Week 3 | Week 4
---------|--------|--------|--------|--------
Normal   |        |        |        |        
Unfermented |      |        |        |        
Fermented |        |        |        |        

Spleen triglyceride concentration (mg/g tissue weight)

Baseline | Week 1 | Week 2 | Week 3 | Week 4
---------|--------|--------|--------|--------
Normal   |        |        |        |        
Unfermented |      |        |        |        
Fermented |        |        |        |        

Spleen phospholipid concentration (mg/g tissue weight)

Baseline | Week 1 | Week 2 | Week 3 | Week 4
---------|--------|--------|--------|--------
Normal   |        |        |        |        
Unfermented |      |        |        |        
Fermented |        |        |        |        

Graphs A, B, and C show the change in concentration over time for spleen cholesterol, triglyceride, and phospholipid, respectively, across different conditions: Normal, Unfermented, and Fermented.
