(A) Graph showing the effect of different substances on blood pressure (BP) in mm Hg. ACh (1µg/kg) and Saline (0.1 ml) are shown with a 1 min interval. Vo.Cr (mg/kg) is also indicated.

(B) Bar graph showing the percentage fall in mean arterial pressure (MAP) with different concentrations of Vo.Cr (mg/kg). The values are 0.1, 0.3, and 1.0 mg/kg. The graph indicates a significant increase in the percentage fall with 1.0 mg/kg compared to 0.1 and 0.3 mg/kg.
