Assessed for eligibility
N=187

Excluded n = 9
(Health condition aggravation n = 6; Communication problems n = 3)

Completed baseline and randomized (N=178)
NPC=62;
Breast=41;
Gynecological cancer=31;
Lung=14;
Others=30

Allocated to intervention n = 89
Received intervention n = 89
Did not receive intervention n = 0

Allocated to control n = 89
Received control n = 89
Did not receive control n = 0

Completed assessment at 2 weeks after RT (N=89)

Followed up two years (N=178)
Lost follow-up (N=10)
