Figure 2

(A) Box plots showing DNMT3A mRNA level in Endometriosis, Fertile Women, and Tubal occlusion groups. The p-values are 0.047 and 0.044.

(B) Box plots showing DNMT1 mRNA level in Endometriosis, Fertile Women, and Tubal occlusion groups. The p-values are 0.470 and 0.621.

(C) Box plots showing DNMT3B mRNA level in Endometriosis, Fertile Women, and Tubal occlusion groups. The p-values are 0.100 and 0.717.
