A. Thy-1 immunostaining with a dotted line indicating the area of interest. Scale bar: 100 µm.

B. Thy-1 staining at a higher magnification showing structure 'rf' and 'gf'. Scale bar: 25 µm.

C. DR staining highlighting 'rf' and 'gf'.

D. β2m staining with 'gf', 'rf', and 'e' indicated.

E. CK staining with 't', 'vl', and 'g'.

F. Thy-1 staining with 'rf' indicated. Scale bar: 25 µm.

G. CD68 staining with 't', 'vl', and 'g'.

H. Thy-1 staining at a higher magnification showing structure 'vl' and 'g'.

I. Thy-1 staining with 'vl' and 'g'.

J. CD68 staining with 't', 'vl', and 'g'.
