Table 1. Summary of the fetal membrane samples and protocols used.

```
Pre-labour (n = 22)
  Inactive – not expressing iNOS (n = 19)
  Cultured with serum (n = 6)
    PAF treated (n = 3)
  Cultured without serum (n = 9)
    Serum only (n = 3)
    PAF treated (n = 5)
    LPS treated (n = 4)
  Active - expressing iNOS (n = 3)
  Immunocytochemistry (n = 4)
Post-labour (n = 4)
  Immunocytochemistry (n = 4)
```
