Define competencies
• Identify roles and responsibilities of students upon graduation

Define learning objectives
• Identify knowledge, skills, and attitudes which must be learned to achieve each competency

Map objectives
• Map objectives to courses and years in which the learning objectives are to be achieved

Create curriculum
• Specify the content, teaching materials, and evaluation methods for achieving the learning objectives

Train faculty
• Train faculty in new content and teaching methods to achieve mastery of competencies among students

Evaluate curriculum
• Evaluate student performance of competencies
