6 action areas from the *Agenda for Global Action on HRH*.

1. Building coherent national and global leadership for health workforce solutions
2. Ensuring capacity for an informed response based on evidence and joint learning
3. Scaling up health worker education and training
4. Retaining an effective, responsive and equitably distributed health workforce
5. Managing the pressures of the international health workforce market and its impact on migration
6. Securing additional and more productive investment in the health workforce
