The diagram illustrates the chance-corrected concordance of underlying diagnoses and all diagnoses for various conditions. The conditions included are Birth Asphyxia, Preterm Delivery, Congenital Malformation, Stillbirth, and Meningitis/Sepsis. The x-axis represents the percentage range from 0 to 100, and the y-axis lists the conditions. The blue bars represent the underlying diagnosis, while the red bars represent all diagnoses. The data shows varying degrees of concordance across the conditions.
