Suppl. Fig. 1

(a) Western blot images showing the effects of vemurafenib on ErbB3 and other kinases.

(b) Table and Western blot images showing the mean pixel density of ErbB1, ErbB2, ErbB3, and ErbB4 untreated and treated with vemurafenib at 6h and 24h. The table includes the following kinases: pErbB3, pErbB3/Erbb3, ERK 1/2, and AKT.
