(a) Diagram showing the process of 250°C Annealing.

(b) Graph showing intensity before and after heat treatment for sample (012) with peaks at (003), (006), (012), (014), and (024).

(c) Similar graph for sample (012) with peaks at (003), (006), (012), (014), and (024) indicating intensity before and after heat treatment for different samples with varying heat treatment conditions.
