Comparison of Fairness Ratio for 100 node network

Figure showing a scatter plot with the Random Topology Index on the x-axis and the Fairness Ratio $F_R$ on the y-axis. The plot compares two scenarios: e-TICA2 over e-TICA and e-TICA2 over TICA, indicated by different markers.

Legend:
- *: e-TICA2 over e-TICA
- #: e-TICA2 over TICA
