64 Hadamard Codes at SNR=10dB

- TRTap with 1 tap at Channel 1
- TRTap with 10 taps at Channel 1
- TRTap with 50 taps at Channel 1
- TDes at Channel 1
- TRTap with 1 tap at Channel 2
- TRTap with 10 taps at Channel 2
- TRTap with 50 taps at Channel 2
- TDes at Channel 2

Symbol Error Rate vs. Number of Users

Plot shows the symbol error rate for 64 Hadamard codes at an SNR of 10dB. The graph compares different tap configurations at two different channels, Channel 1 and Channel 2, with varying numbers of taps (1, 10, 50) compared to TDes for both channels.
