Multiple, less well defined triggers

- Psychological stressors
- Stroke, AD, HD, PD, MS
- CVD
- COPD;
- RA; SLE; IBD;
- Diabetes; Metabolic syndrome
- HIV infection
- Cancer
- Bacterial translocation
- Postpartum period
- Hemodialysis
- IFNα-immunotherapy

Acute triggers

Acute infection
Tissue injury

Acute, less well defined triggers

- Psychological stressors
- Stroke, AD, HD, PD, MS
- CVD
- COPD;
- RA; SLE; IBD;
- Diabetes; Metabolic syndrome
- HIV infection
- Cancer
- Bacterial translocation
- Postpartum period
- Hemodialysis
- IFNα-immunotherapy

- Acute onset
- ACUTE ADAPTIVE RESPONSE

Clinical Depression

Phenomenological overlap

Sickness behaviour (CIRS)

- Insidious onset
- Waxing and waning
- Chronic
- Sensitization
- Seasonal variation
- (Hypo)manic episodes
