DEVELOPMENTAL PATHWAYS OF FASTER AND SLOWER REPRODUCTIVE STRATEGIES

**FASTER**
- Marital discord, father absent
- High stress
- Inadequate $ resources
- Harsh, rejecting insensitive
- Inconsistent
- Insecure attachment
- Mistrustful internal working model
- Opportunistic interpersonal orientation
- Early maturation / puberty
- Earlier sexual activity
- Short-term, unstable pair bonds
- Limited parental investment
- More offspring

**SLOWER**
- Spousal harmony, father present
- Adequate $ resources
- Sensitive, supportive, responsive
- Positively affectionate
- Secure attachment
- Trusting internal working model
- Reciprocally-rewarding interpersonal orientation
- Later maturation / puberty
- Later sexual activity
- Long-term, enduring pair bonds
- Greater parental investment
- Fewer offspring

A. FAMILY CONTEXT
- Prenatal
